**SURE STOP -
TURNS WATER OFF
AT THE FLICK OF A SWITCH**

If you had to switch off your water supply in an emergency (eg Burst Water pipes) would you know what to do? Sure stop water valves are designed so that the water supply to which they are connected can be switched on or off at the flick of a switch. It enables the easy servicing of any problem that may occur with the water supply or appliance without having to use the Brass Stop Cock, and means you know where to switch off the water. The switch can be located above or below your work surface. A must for every home.

**WHOLE HOUSE WATER
FILTRATION SYSTEM**

An affordable must for every home.

Water is something we all take for granted. Turn on the tap and it's there. Safe to drink, safe to bathe in. In fact, water is so much of our daily life that it is tempting to think that one drop of water is very much like another unfortunately it is not. The quality of our water varies from

one town to another. That's why **ODD JOB SOLUTIONS** has started to install a 2 - stage whole house water filtration system. The main purpose of the 2 - stage water filters is to deliver clean and clear water to every tap and shower head in your home. Filters should be changed every 12 months.

Benefits:

- REDUCES LIMESCALE AND SEDIMENT
- PROTECTS APPLIANCES
- EXCELLENT PURIFICATION
- EASY TO CHANGE FILTERS
- AFFORDABLE PRICES
